

Local Boy Found a New Creature in the Woods by His Home in Florida

The boy said he was out looking for leaves when he came across the new strange creature scientists are calling the "frog". Much is to be learned about it but it is so rare and scientists are still confused on how it came to Florida. When I sat down with the leading animal researcher he said "I've never seen anything like it. It's tongue is something so impossible, I'm starting to think that the "frog" is isn't from this planet at all." The new found creature is currently under heavy surveillance at the top secret research facility Area 51. Here's is a portion of my interview with the top lab worker at Area 51 whos asked his name and anything he mentions that could get him fired be censored:

Me: "Where do you think this frog came from?"

NAME CONFIDENTIAL: I've never seen anything like it, it has reading like some **CONFIDENTIAL MATERIAL** we found in a desert, so we have suspicions that it is from another planet.

Me: Is it dangerous?

NAME CONFIDENTIAL: We aren't sure but we have only seen it jump around and eat flies with such force. We don't believe that it's dangerous but further research is needed.

More information will come in the future so stay subscribed and I'd like to thank our sponsor of this article, RAID: Shadow Legends, the free MMORPG that is free to download in the app store today! Use code "frog" and get one free epic champion and 500 silver and the chance to get a free loot chest! Just sign up using that code and the items will be in your inventory in the top right of the game screen.

Hackers Take Over Area 51 to Leak Information on the Suspected Alien "frog".

Local hackers have gotten access to the Area 51 data bank to leak any information on the frog. They found nothing.
